

DAMAGES DUE TO PINE WEEVIL

AFTER TWO GROWTH SEASONS

Cumulative percentage of seedlings (per cent) who died due to pine weevil damage after one and two growth seasons. For the second year also the proportion of dead and severely damaged plants is shown. The charts are presenting the results of Bugstop. Bugstop has later changed its name to KVAEE.

Treatment and results for containerized plants

- DEAD YEAR 1
- DEAD YEAR 1+2
- DEAD YEAR 1+2+ SEVERE DAMAGED

Treatment and results for bare rooted plants

- DEAD YEAR 1
- DEAD YEAR 2
- DEAD YEAR 1+2+SEVERE DAMAGED
